Concerning: The use of my comment as part of your proposed lawsuit. Concerning the Stray Gulch and Tekison road abandonment, by the Washington Department of Fish and Wildlife.

Please be advised that at the time of that comment on 11/29/2011 I did feel as I commented. As I have studied the matter in more depth, I now feel that the proposed road abandonment is what is best for the animals that inhabit that area. If I am called to testify for the lawsuit, I will have to express that I have changed my position on this closure.

Feel free to contact me on this matter if you like.
